The LIST

This season, make a statement in bright hues and graphic prints – fashion favors the bold

1

HOW TO MAKE IT WORK FOR WORK:

A graphic dress

A fuss-free silhouette is the key to making bold color office-appropriate, and a graphic dress will hit the sweet spot between smart and attention-grabbing. At Marni, this look was ramped up with matching pants – by all means follow suit. Alternatively, you can wear it alone or tone down the impact by layering over black pants and adding a blazer into the mix for good measure.
